WHAT IS BEEP?

Beep is a new, independent taxi platform for self-employed street or taxi-rank taxi operators, whether they hold a single licence or are small companies with several cars.

Beep mainly works with its own app and in the Antwerp region. Its cooperation with a number of large taxi companies ensures an inflow of interesting corporate and port-related jobs.

WHAT'S IN IT FOR YOU?

- fixed monthly connection fee
 - fares: private customers, corporate, port, reduced-mobility and TAXI.EU
- low entry fee
- simple administrative processes between dispatch centre and operator
- software and hardware as per legal requirements
- short- or long-term contracts
- no exclusivity (operators can connect to other platforms)
- lower tariffs for quick decision-makers and exemption from entry fee
- Beep community = quality and reliability

REQUIREMENTS

- No livery requirements for vehicles, but we do apply quality requirements relating to **age** and **appearance**
- compliance with the conditions of operation and driver requirements specified in the new Flemish legislation
- service-minded attitude
